

Module: Electronics, system components

Series of TD n° 4

Exercise 1:

Choose the right answer:

1. What does HDD MEAN?
 - a. High Disk Drive
 - b. Hard Disk Drive
 - c. Hard Drive Definition
2. The HHD is designed based on:
 - a. Mechanical components
 - b. Flash memory
 - c. Mechanical components accompanied by a small Flash memory module
3. What does the abbreviation SSD mean?
 - a. Mechanical components
 - b. Flash memory
 - c. Mechanical components accompanied by a small Flash memory module
4. The SSD is designed based on:
 - a. Mechanical components
 - b. Flash memory
 - c. Mechanical components accompanied by a small Flash memory module
5. What is the SATA connector for?
 - a. Connects a printer
 - b. Connects storage devices (hard drives, CD/DVD drives) to a motherboard.
 - c. Connects the keyboard and mouse
 - d. To pass current.
6. The DVI Connector
 - a. Connects a computer to a network
 - b. Connects the keyboard and mouse
 - c. Connects a graphics card to a display device such as a computer monitor
 - d. Connects the computer to another computer
7. Which of these connectors is a digital connector?
 - a. DB9 connector (serial port)
 - b. DB25 connector (parallel port)
 - c. VGA connector
 - d. HDMI connector
8. An AGP port is slower than a PCI Express port
 - a. TRUE
 - b. False

9. The parallel port (DB25) is:

- a. Port used to connect a printer (the other newer and faster solution is USB)
- b. Port that allows you to connect the screen (screen output)
- c. Port that allows you to connect external devices such as mice, digital cameras, modems, etc.

10. A sound card is:

- a. Input device
- b. Output device
- c. Input/output device

11. A scanner is:

- a. Input device
- b. Output device
- c. Input/output device

Exercise 2:

Enter the correct answer (A, B, ..., E) in the "Answer" column for each of the questions (1, 2, ..., 5)

Motherboard I/O connectors	Answer
1. RJ45 connector	
2. e-SATA connector	
3. Display Port connector	
4. Audio Connector	
5. VGA connector	

Possible answers
A. This connector is present on most sound cards and often on motherboards when the chipset manages the audio stream.
B. Allowing you to connect the computer to a network.
C. This type of connector is fitted to most graphics' cards, allowing 3 analog signals corresponding to the red, blue and green components of the image to be sent to the screen.
D. Allowing the connection of storage devices.
E. The connector is a new digital interface allowing the transfer of multimedia data (digital audio and video).

Good Luck
